Father's Day Cards

Cards are purposely non-specific with the title 'dad', so can be easily personalised (daddy, uncle, pop).
These are also the outside cover of the card, so any greeting and message can be written (and no fussing doing double sided printing and working out which way to put in the sheets!)
Best printed on coloured A4 cardstock.

Card 1: Blank space is for a painted handprint.
Card 2: Paint, design or tear and paste coloured paper pieces on tie.
